Tech Experience

December 2023 - February 2024
Code Cool | Budapest, Hungary
Junior Programmer Course

Designing and implementing a robust backend application using Spring Boot, showcasing proficiency in RESTful API development and MySQL database integration.

Team project: online multiplayer game, backend. Agile development (SCRUM). Java, Spring, MySQL, Git, JIRA, HTML, CSS. Weekly practicing of algorithmic exercises (CodeWars and LeetCode).

September 2023 - December 2023
Green Fox Academy | Budapest, Hungary
Programming Bootcamp

Intense bootcamp (60 hours a week) where I learned the basics of OOP, databases and developing web applications focused on backend. I took 2 exams with outstanding score.

Solo projects: web app using third-party API and database,
2D tile-based fantasy game

July 2023 - August 2023
Green Fox Academy | Budapest, Hungary
Coding Camp

Frontend focused course. Advanced practicing of HTML & CSS.
Solo project: web gallery using HTML, CSS & JavaScript.

Work Experience

2016 - 2023
Earthcake Ltd | Bristol, United Kingdom
Co-owner, Head Baker

Former bakery owner with a proven track record in problem-solving, attention to detail, project management, and customer focus. Successfully adapted to industry trends, showcasing an entrepreneurial mindset. Ready to leverage these skills in a junior Java developer role, demonstrating adaptability and a strong foundation for coding precision.

Accustomed to fast-paced environments, I excelled in troubleshooting and addressing customer needs in real-time. My experience managing a thriving cake shop reflects strong project management and adaptability, essential qualities for success in software development.
